

SHIKHAR HUDDA

Java Full Stack Developer — Backend Software Engineer | Spring Boot | Microservices | REST APIs

Ghaziabad, India | shikharsinghhooda@gmail.com | +91 9084926067 | linkedin.com/in/shikhar-hudda6794a9349

PROFESSIONAL SUMMARY

Java Full Stack Developer with 1+ year of hands-on backend experience building secure, scalable **REST APIs and microservices** with **Java, Spring Boot, Spring Security and Hibernate/JPA**. Experienced in building microservices-based applications with independently deployable services. Strong in SQL database design (MySQL, PostgreSQL), query optimization, JWT authentication and role-based access control, with 20+ APIs delivered across 10+ applications. Solid debugging, problem-solving and system design fundamentals; works with Git, Maven, Docker, JUnit and Agile teams, and collaborates closely with product, QA and engineering. Based in Ghaziabad (NCR) and available for on-site work in Noida.

TECHNICAL SKILLS

Java & Spring: Java, OOP, Collections, Swing, Spring Boot, Spring MVC, Spring Security, Hibernate (JPA), Microservices, JWT Authentication, Role-Based Access Control

APIs & Architecture: REST API Design, Design Patterns, System Design basics, Data Structures & Algorithms, Node.js, Express.js, Socket.io

Databases: SQL — MySQL, PostgreSQL: schema design, normalization, indexing, query optimization; Prisma ORM

Testing & DevOps Tools: JUnit, Postman, Git, GitHub, Maven, Docker, Agile Methodology

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

AI / LLM APIs: Groq API (Llama), Google Vision API (OCR), PDF processing, prompt engineering

PROFESSIONAL EXPERIENCE

SDE Trainee — Mavitrq Global Pvt. Ltd.

Jun 2026 – Sep 2026

- Built and maintained 10+ production applications for campus management (Next.js, React.js, TypeScript, Prisma ORM, PostgreSQL), owning backend services and the database layer.
- Designed 20+ RESTful APIs across 10+ modules with JWT authentication, role-based access control and secure user management, structured as loosely coupled, independently maintainable service modules.
- Owined SQL schema design and query optimization for PostgreSQL / MySQL services to keep performance and scalability high.
- Collaborated with product and engineering teammates in Agile sprints — code reviews, debugging, Git, testing and deployment.

Java Full Stack Developer — Zereus (Robotics and AI Solutions)

May 2025 – Apr 2026

- Built, debugged and maintained backend services and full-stack web applications using Java and Spring Boot in a robotics/AI product environment, backed by relational databases for scalable data storage.
- Developed and maintained **Spring Boot microservices** exposing REST APIs and communicating with each other.
- Contributed new features and improvements to existing software following clean-code practices and team code-review standards.

Java Full Stack Developer Intern — Softcrayons Tech Solutions Pvt. Ltd.

Oct 2024 – Mar 2025

- Java full-stack development, backend services, RDBMS integration and REST API design.

PROJECTS

AI-Powered Campus Management & Student Productivity Suite

Jun – Jul 2026

Java, Spring Boot, Spring Security, Hibernate/JPA, MySQL, JWT, REST APIs, Microservices, Docker, Socket.io, React.js / Next.js, Groq API, OCR

- Built a suite of 10+ full-stack apps (AI Study Planner, Course Material Aggregator, Digital Campus Noticeboard, Campus Navigator) on a Java Spring Boot backend with a MySQL database.
- Architected the backend as **microservices** (auth, study planner, noticeboard, navigator) with JWT-secured REST communication between services.
- Developed 20+ RESTful APIs with JWT authentication supporting 10+ applications; integrated LLM (Groq / Llama), OCR (Google Vision API) and real-time updates with Socket.io.

Campus Dice — College Management & Placement SaaS Platform

Jul 2026 – Aug 2026

Personal Project | Next.js, TypeScript, Prisma ORM, PostgreSQL, JWT, REST APIs

- Built a scalable multi-college SaaS backend with college-specific, role-based access for admins and students.
- Designed REST APIs via Next.js Route Handlers and Prisma ORM on an optimized relational schema covering tests, assessments, student management and hiring modules.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science — Dr. K. N. Modi Institute of Engineering and Technology (KNMIET), Ghaziabad

- Completed key projects using Java, Spring Boot, microservices, React and Spring AI. Active participant in technical clubs and coding contests.
- Certification: Java Full Stack Development
